

DEMOGRAPHICS

- **Gender:**

66.1%	Female
33.9%	Male
- **Age:** *Listed below is the age distribution of these survey respondents.*

2.1%	18-24
21.5%	25-34
19.4%	35-44
14.1%	45-54
20.9%	55-64
22.0%	65 or older

All age groups were well represented in the survey sample.

- **Number of people in Household**

Adults

39.0%	1 adult
58.8%	2-4 adults
2.2%	5 or more adults

Children (under 18)

29.9%	1 child
60.8%	2-4 children
9.3%	5 or more children

- **People in household limited because of physical, mental, or emotional problems?**

50.8%	None
39.0%	1 person
10.2%	2 people
0.0%	3 people
0.0%	4 people
0.0%	5 or more people

49.2% of respondents reported that there was at least one person in their household that was limited because of physical, mental, or emotional problems.

- **Have physical, mental or emotional problems that limit the ability of adults in household to find employment?**

34.6%	Yes
44.9%	No
20.5%	Does not apply

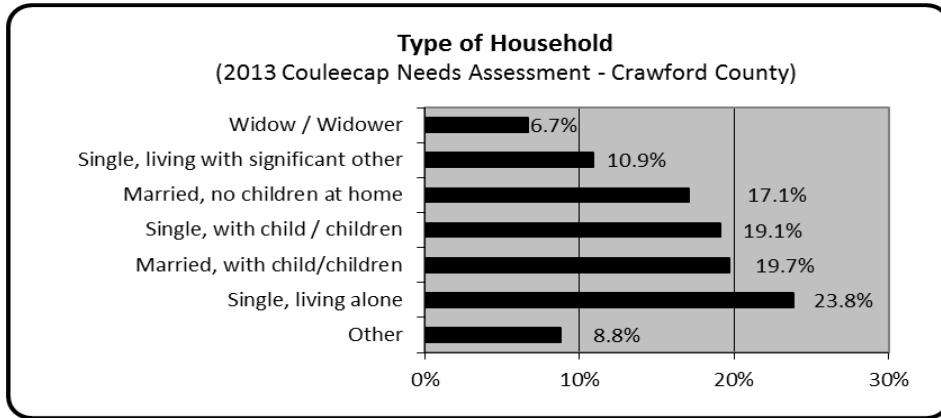

1 out of 3 respondents (34.6%) reported that physical, mental, or emotional problems limited the adults in their household from finding work.

ETHNICITY*

The largest percentages of respondents to the 2013 Couleecap Needs Assessment survey were primarily White (94.8%). Other ethnicities represented included: Asian (1.0%), Black (2.1%), American Indian (1.0%), Hispanic or Latino (3.1%), and Other (3.1%).

*Percentages reported equal more than 100% because some respondents reported more than one ethnicity for their household.

TYPE OF HOUSEHOLD

Single Households account for about two-fifths of survey respondents and Married Households account for more than one-third.

Households with Children = 38.8%
Married Households = 36.8%
Single Households = 42.9%*
 * Includes single, with child/children and single, living alone

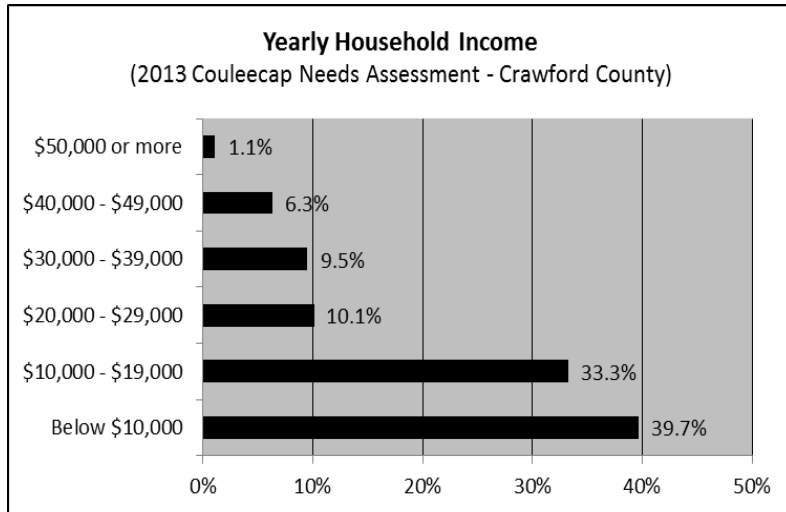

SOURCES OF CASH INCOME FOR HOUSEHOLD

Wages were the most common source of household income.

Special Note: Since 2010, the percent of survey respondents receiving cash income from unemployment went up 1.9%.

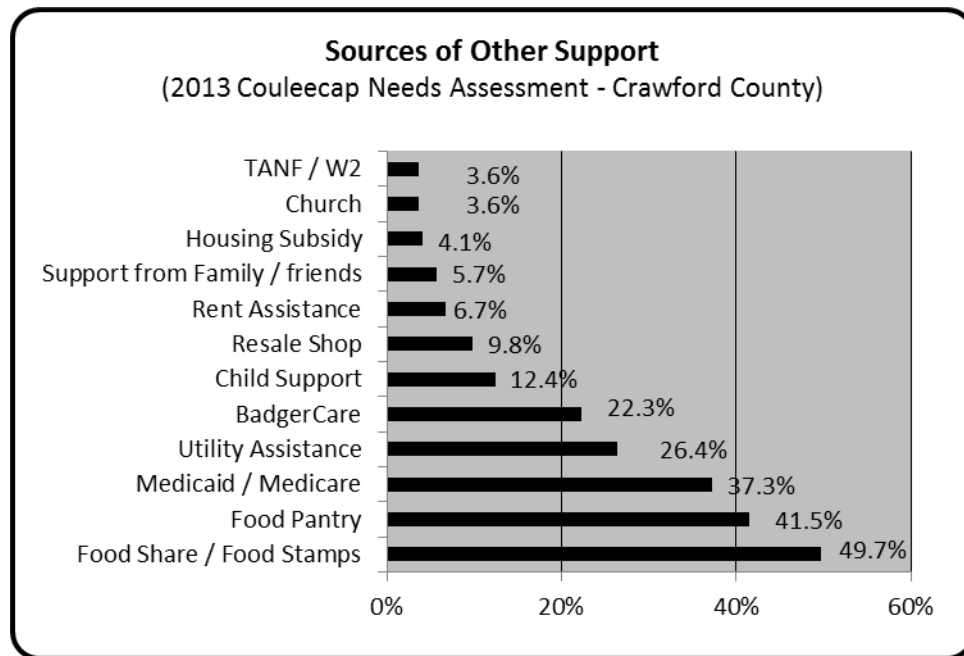

YEARLY HOUSEHOLD INCOME

Yearly Household Income	
Below \$10,000	39.7%
\$10,000 - \$19,000	33.3%
\$20,000 - \$29,000	10.1%
\$30,000 - \$39,000	9.5%
\$40,000 - \$49,000	6.3%
\$50,000 or more	1.1%

About three-fourths (73%) of the 2013 Couleecap Needs Assessment survey respondents in Crawford County had a Yearly Household Income less than \$20,000.

SOURCES OF OTHER SUPPORT

The most prevalent sources of other support were related to food – Food Share / Food Stamps and Food Pantry.

Couleecap assists individuals and families with their emergency food needs through 11 food pantries in its four-county service area.

TYPE OF HOUSING

Homeless

A person is considered homeless if they reside in one of the following places:

- *Transitional housing*
- *Live "on the street"*
- *Leaving domestic violence with no plans for residence*
- *Being evicted with no plans of residence*
- *Living with others (short-term or long-term)*
- *Emergency shelter*

According to this definition, 6.2% (about 1 out of 17) of survey respondents could be considered homeless.

HEALTH INSURANCE

- Adults (18 years and older) in household that DO NOT have health insurance.
 - 74.7% All Insured
 - 13.2% Some Insured
 - 12.1% None Insured
- Children (under 18 years) in household that DO NOT have health insurance
 - 91.2% All Insured
 - 5.4% Some Insured
 - 3.4% None Insured

Low-income individuals / families often do not have the medical insurance and / or preventative care they need. As reported, about three-fourths (74.7%) of adults have health insurance, leaving one-fourth underinsured or uninsured.

BadgerCare and BadgerCare Plus have played an important role in improving the number of adults and children that have access to affordable health care in Crawford County.

REGULAR ANNUAL PHYSICAL EXAMS

Do members of your household get regular annual physical exams?

68.4% YES - If YES

31.6% NO - If NO

Where did members in your household get their most recent annual exam?
(Ranked from most to least common.)

1. Clinic - 59.6%
2. Hospital Outpatient Clinic - 13.0%
3. Public Health Department - 4.1%
4. Family Planning Clinic - 3.1%
5. Public Clinic - 3.1%
6. HMO Clinic - 2.1%
7. Community Health Center - 1.0%

What are reasons for not receiving annual exam?
(Ranked from most to least common.)

1. No Insurance - 15.5%
2. Cost - 7.8%
3. Transportation - 1.6%
4. No clinic close by - 1.0%
5. Do not like any of the providers - 1.0%
6. Do not know who to go to and/or what to do - 0.0%
7. Other - 2.1%

EMPLOYMENT STATUS

Number of adults in household that contribute to the yearly household income:

1 Adult	63.9%
2 – 4 Adults	34.9%
5 or more Adults	1.2%

EDUCATION LEVEL

Number of adults in household that have completed high school or have a GED/HSED:

1 Adult	7.1%
2 – 4 Adults	44.8%
5 or more Adults	58.1%

ABILITY TO FIND SERVICES NEEDED

While many of the respondents to the 2013 Couleecap Needs Assessment Survey know how to find services, a significant portion still do not know where to find these services.

In the chart above, the percentage of respondents that know how to find each specific service are shown.

(Note: The lower the percentage, the more inability the respondents have in locating that particular service.)

HOW MUCH OF A NEED IS.....FOR YOUR HOUSEHOLD?

Survey respondents were asked to rate the following 8 issues and how much of a need each issue is for their household. The 8 issues included: transportation, employment, education, housing, health, child and family development, emergency assistance, and business development.

Transportation

- *Finding a ride and finding public transportation were not at all / slight NEEDS for about two-thirds of survey respondents' households.*
- *Paying for car services, gasoline, and car insurance was a high / very high NEED for almost one-half of survey respondents' households.*
- *Buying a car and finding a reliable car - were considered high / very high NEED for more than one-third of survey respondents' households.*

Education

- ***Paying for school, getting training for a better job, and learning money management skills were the highest EDUCATION NEEDS.***

Employment

- ***Finding a job with higher wages, getting training for a better job, and finding a job with health benefits were the highest EMPLOYMENT NEEDS.***

Housing

- *Paying for utility bills, paying for home repairs, and paying for property taxes were the highest HOUSING NEEDS.*
- *Buying a house and finding safe, affordable housing were reported as the lowest NEEDS.*

Health

How much of a NEED is HEALTH for your household?
(2013 Couleecap Needs Assessment - Crawford County)

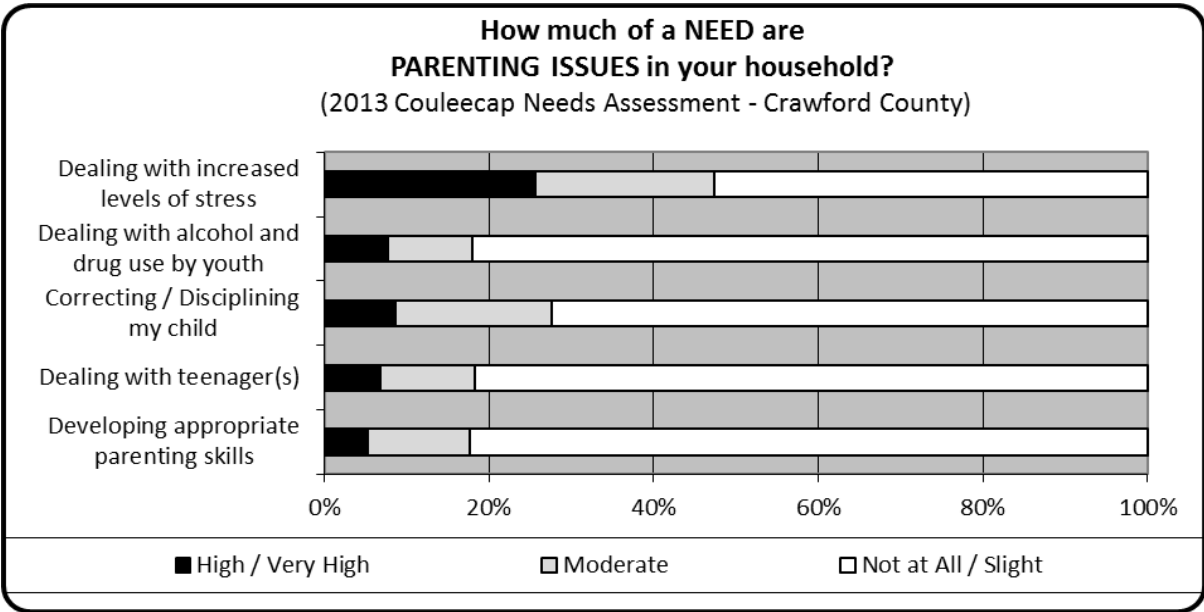

- *Cost and availability of health services (dental, physical health, eye, insurance, prescription drugs) was a NEED for almost two-thirds of the survey respondents' households.*
- *Getting treatment for mental illness / depression, a disability, and health condition was a high /very high NEED for about one-third of survey respondents' households.*

Child and Family Development

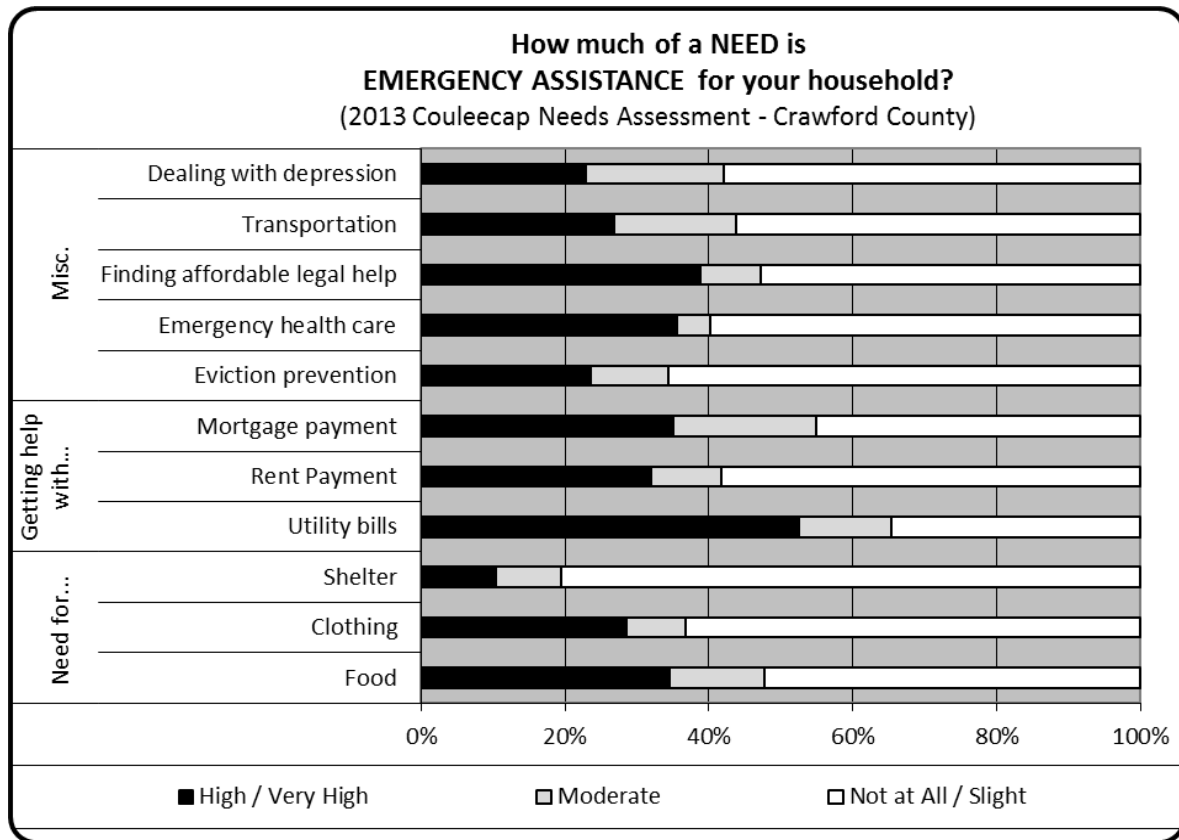

- *For about one-fourth of the households, child-care was a problem.*
- *The highest child care need was affordable, quality care. Finding care when a child is sick and on nights and weekends were high needs. This can be a difficult issue, especially when both parents are employed outside the home.*

- *About half of survey respondents' households reported a moderate to high need for dealing with increased levels of stress.*

Emergency Assistance

- *The highest EMERGENCY ASSISTANCE NEED is getting help with utility bills.*
- *Need for food is a moderate to high NEED for about one-half of survey respondents' households.*

Business Development

- *Getting business start-up help and developing a business plan was a NEED for about 1 out of 3 survey respondents' households.*
- *Getting business start-up loans was the highest BUSINESS DEVELOPMENT NEED.*

- **Age Distribution of Primary Respondents.** The largest percent of respondents in Crawford County were from the 25-34 and the 65 and older age groups.
- **Ethnicity.** 95% of respondents were White, 1% Asian, 2% Black, 1% American Indian, and 3% Hispanic or Latino.
- **Type of Household.** Households with Children = 39% , Married Households = 37%
Single Households = 43%
- **Sources of Household Income.** Wages were the most common source of household income, followed by Social Security, Social Security Disability, and SSI. Unemployment as a source of household income has increased from 2010.
- **Yearly Household Income.** Almost three-fourths (73%) of survey respondents in the Crawford County had a yearly household income less than \$20,000.
- **Sources of Other Support.** Food Share / Food Stamps was the most common source of other support, followed by Food Pantry, Medicaid / Medicare, and Utility Assistance.
- **Type of Housing.** Two-thirds of survey respondents (63%) owned their own home. About 30% of respondents rented their home.
- **Homeless.** About 1 out of 17 survey respondents (6%) from Crawford County could be considered homeless.
- **Medical Insurance .** Low-income individuals / families often do not have the medical insurance and / or preventative care they need. As reported, three-fourths (75%) of adults have health insurance, leaving one-fourth underinsured or uninsured. BadgerCare and BadgerCare Plus have played an important role in improving the number of adults and children that have access to affordable health care in Crawford County.
- **Regular Annual Physical Exams.** More than two-thirds (68%) of all members within the households reported that they received regular annual physical exams.
- **Finding Needed Services.** Survey respondents were least sure of where to find services for (1) Start a business; (2) Foreclosure assistance/prevention; and (3) High School Diploma.
